March 1st, 2012 - **Electric Rubyfish** released its third CD *'Willing Hearts'* with special guest artist **Maria Muldaur**.

Electric Rubyfish released their first CD *'Love Republic'* in 2008, and the second *'Lucky World'* in 2009. On this third CD *'Willing Hearts'*. The transformation this band has made into a compelling, focused, and hard driving unit is evident on this recording.

"These are challenging times for everyone and people respond in different ways. Some become cynical and that's the fastest route to doing nothing. One can always make a difference - It takes commitment" – **Andy Jones**, singer/songwriter Electric Rubyfish

Maria Muldaur, one of America's most accomplished vocal stylists agreed to contribute lead vocals to three tracks on this CD that best capture this sentiment beautifully – including the title track *'Willing Hearts'* – a song about making a commitment to what you believe in.

'The Dirty Blues' – a grass roots original, is the story of an old bluesman committed to his music. *'Deep'* – a Latin flavored song about commitment to honesty, truth, authenticity and valuing what matters most.

'Willing Hearts' is a model mix of acoustic and electric guitars, a tight rhythm section with original lyrics and vocal styling. One can hear and feel the energy and commitment the band put into this project.

Electric Rubyfish includes: **Andy Jones** (guitar, vox) **Dale Tangeman** (guitar, vox harmonica), **Leesah Stiles** (vox), **Jon Coghill** (bass, vox), **Ruperto Ifil** (drums & percussion), and special guests **Maria Muldaur** (on vox) and **Ross Rice** (keyboards).

'Willing Hearts' is available on iTunes, CD Baby, Amazon.com, and at local stores in the Hudson Valley, New York area. Visit Electric Rubyfish at www.electricrubyfish.com, www.facebook.com/electric_rubyfish
